Thematic Team Leader “Fiscal decentralisation”

Programme: “Swedish Support to Decentralisation Reforms and Recovery in Ukraine 2024-2028”

About SALAR International & its engagement in Ukraine

SALAR International is a subsidiary of the Swedish Association of Local Authorities and Regions (SALAR), representing all 290 municipalities and 21 regions in Sweden. As the international branch of SALAR, we work globally to support local democracy and good governance in developing and transitioning countries. Our expertise covers areas such as capacity building in municipal management and service delivery, local and regional development planning, support for local government associations, decentralisation policies and European integration. Geographically, SALAR International’s projects cover countries in Eastern Europe, the Caucasus, the Middle East and the Sub-Saharan Africa.

SALAR International has been engaged in Ukraine since 2014, providing support to Ukraine’s decentralisation process through three major initiatives focusing on building a robust multi-level governance system, increasing accessibility and quality of services at the local level, and enhancing international cooperation between municipalities from Ukraine and the EU. After the full-scale invasion, SALAR International has added crisis support to Ukrainian municipalities, providing them with material assistance.

Description of the assignment context

SALAR International has finalised its current projects in Ukraine (DSP and Prosto), which were initiated before the full-scale invasion. To address the changing needs of Ukrainian municipalities and national actors during wartime, a new multi-level program has been initiated, to be financed by the Swedish International Development Cooperation Agency (Sida).

SALAR International is currently in the preparatory phase of the new programme, with estimated activities scheduled to begin in July or August 2024. The programme is planned for four years, but activities are currently outlined for the first 24 months.

The new programme aims to work with both short and long-term focus on addressing the needs of the multi-level governance system in Ukraine and in parallel strengthen municipalities’ public service provision, as well as their direct engagement in the recovery and reconstruction process, in line with the requirements of EU accession.

The programme will consist of two components: one focusing on policy and collaboration with national actors, and the other providing direct support to municipalities. It will encompass five thematic areas: Education, Fiscal Decentralisation and Budgeting, Administrative Service Provision, Locally-led Recovery, and International Municipal Cooperation. The programme will procure material support to address the crisis needs of municipalities and coordinate with other international actors to finance the implementation of recovery plans.

Organisational set up

The programme is a joint Swedish-Ukrainian initiative with management structures in both Stockholm and Kyiv. It encourages a flat organisational structure, meaning a high degree of autonomy and responsibility for involved experts, as well as strong local ownership among beneficiaries such as national stakeholders and Ukrainian municipalities.

It is expected that more than 50 people will be working full-time in Ukraine within various thematic teams as well as support units.

The programme has its office in Kyiv but will implement activities in all regions controlled by the Ukrainian government.
